R01 etc. number of the round	R01 etc.	number of the round

The number after the abbreviation means how many times the stitch should be done (for instance **sc 4** = **sc**, **sc**, **sc**, **sc**). The lack of the number means that the stitch should be done once.

Sequences in brackets should be done as many times as the number after the asterisk says - for instance (inc, sc 2)*4 = inc, sc2, inc, sc2, inc, sc2, inc, sc2.

Please notice: You can follow either the written pattern below or the chart on Page 5.

Stuff the head. Do not stuff the ears. Embroider eyes with black thread. Use Figure 5 and 6 as a reference.

If you decide to follow the chart, please remember that the head is crocheted in spiral, even though the chart shows a rectangle. Read **each** round from left to right.

The chart is rotated 90° CW to fit the page better. Print this page before you start crocheting.

ef = earfan

ec = earcluster

Do not cut the thread after you finish the head but continue in spiral following the **CHEST** pattern.
