Uniek, Inc. • A Pyle Group Company • Waunakee, WI 53597
Made in U.S.A. • Fabriqué aux E.-U. • Hecho en EE.UU.

House Bank

Instructions

Follow graphs.

1. Cut out plastic canvas pattern parts. You will have:

Roof - 2 parts

House front and back - 1 piece each

House bottom - 1 part

House sides - 2 parts

Grass - 2 parts

Small upstairs shutters - 4 pieces

Large downstairs shutters - 10 pieces

Door - 1 piece

4 Bushes - 1 piece each

Chimney - 4 pieces

2. Stitch all of the parts, leaving the edges free for overcasting and whipstitching.

3. Whipstitch the 4 sides of the house together. Overcast the top 4 edges of the house.

4. Overcast the inner edges of the house bottom and then whipstitch to the bottom of the house.

5. Overcast the opening on one roof side. Whipstitch the roof peak together and overcast the remaining roof edges. Glue the roof to the house.

6. Whipstitch the long edges of the chimney together. Overcast the top and bottom openings. Glue into the opening on the roof.

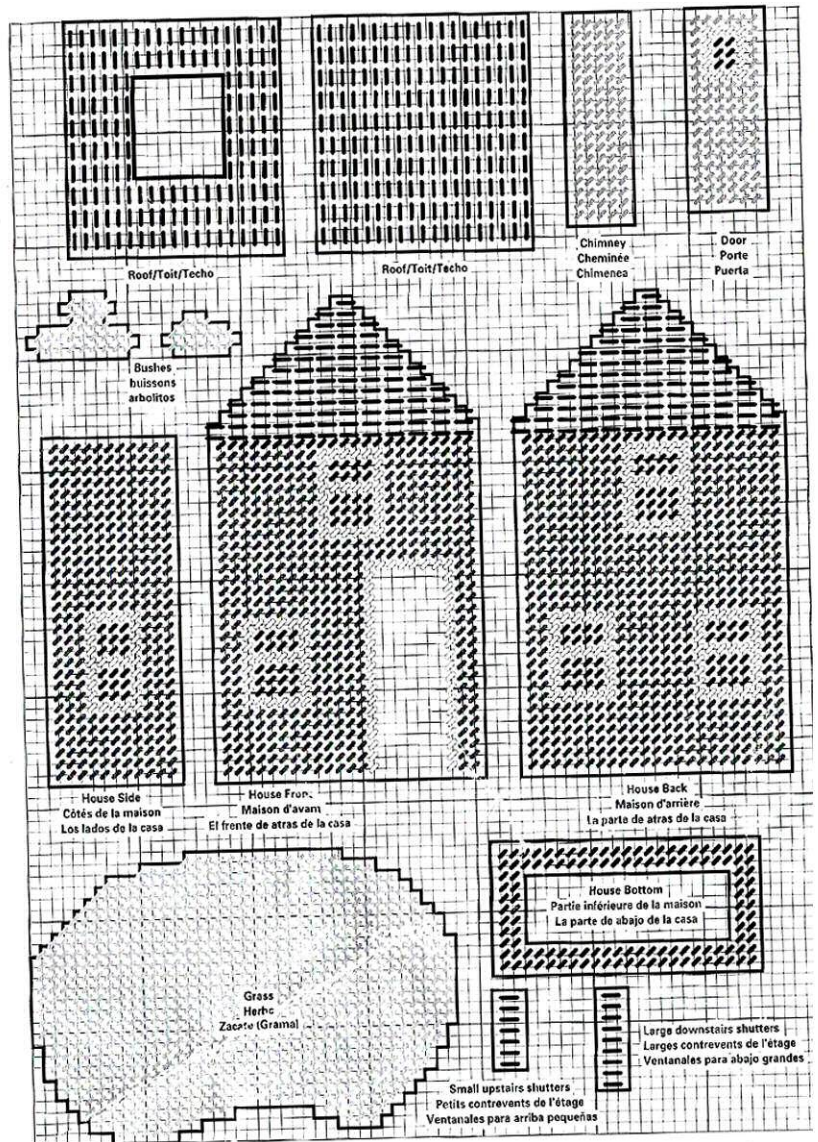

7. Overcast the edges of the door and the shutters and glue in place on the house.

8. Overcast the edges of the bushes and glue to the house.

9. For bottom of bank, sew the front edge of the house to the top grass piece. To make the hinge, (where bank bottom will open to remove money) place the second grass piece to the house bottom and whipstitch together.

10. Add details such as the door knob, flowers, and lamp.

11. Add ribbon tie lock to back house and base.
